The Caption Swipe File

Plug-and-play caption templates that stop the scroll — one for every platform.

Why captions decide everything

The first line is the whole game. These templates open with a hook, deliver value, and end with a question that drives replies.

The universal skeleton

- Line 1: a hook (tension, surprise, or a bold claim)
- Middle: the value or story, short lines
- Last line: a question that invites a reply

Hooks that work

- 'Most [people] do X. Here's what I do instead.'
- 'You don't need X. You need Y.'
- 'The honest reason I [did the thing].'
- '[Surprising number] + the one thing nobody mentions.'

Per-platform tone

- Facebook: warm, conversational, personal
- Instagram/TikTok: punchy, emoji, hashtags
- LinkedIn: value-framed, credible
- X: short, sharp, one idea

THE CTA RULE

Always end with the SAME ask across platforms. Comments are warm leads.
