

THE COMPLETE SYSTEM

The Solo Founder's AI Operating System

The complete bundle: every system to run your whole business with AI — context, content, brand, money, and automation.

Everything, in one operating system

This is the full stack — the same system used to run a multi-venture portfolio solo. Each part stands alone; together they're a company in a box.

What's inside

- The AI Chief of Staff + Context Nucleus (your brain)
- Portfolio org chart + agent delegation (your structure)
- The 1-Video content engine + posting systems (your reach)
- Brand-in-a-day + quote cards (your identity)
- Subscription audit + cancel templates (your money)
- 50 tasks to automate + your first company GPT (your leverage)

How to use the bundle

- ☐ Week 1: stand up context + chief of staff
- ☐ Week 2: launch the content engine
- ☐ Week 3: lock your brand
- ☐ Week 4: audit spend + automate one task

THE PROMISE

One person, operating like a team — because the systems carry the load you used to carry alone.

GO DEEPER

Want this done for you?

This guide hands you the system. If you'd rather have it built for you, that's what I do: I find where your time leaks and build the tool that plugs it. No hype — just your hours, back.
