

CONTENT & POSTING

The 1-Video-a-Week Content Engine

Create once. Post all week. The batch-and-repurpose system that ends the daily blank page.

The core idea

You don't need to create every day — you need to create ONCE and atomize. One pillar (a video, a voice note, a rant) becomes a week of content across formats.

Step 1 — Batch (the only part that needs you)

- ☐ Block one 2-hour session per week
- ☐ Record ONE pillar in your own voice
- ☐ Don't edit or format during the session — just create

Step 2 — Atomize

Turn the one pillar into: short clips, a carousel, 2-3 written posts, quote cards, a meme, and a newsletter. Same idea, many shapes.

Step 3 — Distribute

- ☐ Queue each piece to its platform
- ☐ Lead on your most responsive channel
- ☐ Space them across the week
- ☐ Published = done

THE FLYWHEEL

One hour of creation feeds a week of presence. The system, not your willpower, keeps you consistent.

GO DEEPER

Want this done for you?

This guide hands you the system. If you'd rather have it built for you, that's what I do: I find where your time leaks and build the tool that plugs it. No hype — just your hours, back.
