

DAILY SYSTEMS

The ADHD Daily Standup Planner

One screen, one next action. Plan your day the way an ADHD brain actually works.

Why most planners fail you

A wall of tasks is a wall of decisions — and decisions are where ADHD stalls. This planner gives you a decision already made: today's 1-3 that matter, and the single first action.

Morning brief

- ☐ What's my North Star this week?
- ☐ What carried over from yesterday?
- ☐ Today's 3 that matter (no more)
- ☐ The ONE first action to take right now

Midday check (optional)

- ☐ Did I start the first action?
- ☐ What's blocking me — and what's the smallest unblock?

Evening close

- ☐ What shipped today?
- ☐ What slipped — and why?
- ☐ What carries to tomorrow?
- ☐ One win to name

THE RULE

Drafted is not done. Shipped, sent, published — that's done. Momentum over perfection.

Print one per day, or keep it in a note. The format is the system.

GO DEEPER

Want this done for you?

This guide hands you the system. If you'd rather have it built for you, that's what I do: I find where your time leaks and build the tool that plugs it. No hype — just your hours, back.
