

PRACTICAL AI

Your First Company GPT

Set up an AI assistant that actually knows your business — your offers, your voice, your FAQs.

A generic AI gives generic answers

Feed it your business and it becomes yours: it pitches in your voice, answers in your facts, and never goes off-brand.

What to feed it

- ☐ Your offers + pricing
- ☐ Your brand voice (5 example phrases)
- ☐ Your top 20 FAQs + answers
- ☐ Your ideal customer + their pain
- ☐ What you do NOT do

Give it a job

INSTRUCTION

“You represent [business]. Answer only from the facts above, in our voice. If you don't know, say so and offer to connect them to a human.”

Put it to work

- Draft customer replies
- Qualify leads
- Onboard new clients
- Brief you on your own business

Keep it fresh

Update it whenever an offer, price, or FAQ changes. A company GPT is only as good as its last update.
