

THE SOLO FOUNDER SERIES

The Context Nucleus

One living document that becomes your second brain - so every AI tool you touch already knows your whole world. Prompts included.

One document. Every AI tool reads it first. You never re-explain yourself.

- 1 Create the Nucleus with four sections: North Star, Active Threads, Decisions, Log.
- 2 Paste the 'read this first' prompt at the start of any chat.
- 3 Capture decisions and wins as one-line entries the moment they happen.
- 4 Close each session by logging what changed (newest first).
- 5 Weekly: prune duplicates, lift repeated patterns into the top sections.

That's the whole system. The rest of this guide walks each step, with copy-paste prompts you can run in one tap.

The deep walkthrough

1

Generate your Nucleus

Run this once. It builds the four-section document for you from a short interview.

PROMPT · BUILD THE NUCLEUS

Build me a 'Context Nucleus' - a single living document that any AI tool can read to understand my whole world. Use four sections: NORTH STAR (the one outcome that matters), ACTIVE THREADS (the 1-5 things in flight), DECISIONS & CONVENTIONS (choices already made), and LOG (dated, newest-first notes). Interview me briefly, then output it clean and dated.

▶ Run in ChatGPT

tap to auto-fill

2

Load it into any tool

Start of any chat, paste this so the AI uses your context instead of guessing.

PROMPT · READ-THIS-FIRST

Here is my Context Nucleus. Read it fully before doing anything. Use it as the source of truth for my goals, decisions, and current work. If something I ask conflicts with it, flag the conflict. Confirm you've read it in one line, then ask what I want to do. [PASTE YOUR NUCLEUS HERE]

3

Capture as you go

Don't try to remember - capture. One crisp line per item, deduped.

PROMPT · CAPTURE THIS

Add this to my Nucleus in the right section (decision, preference, fact, milestone, or open loop): [THE THING]. Keep it to one crisp line, dated. If it duplicates something already there, update that line instead of adding a new one.

▶ Run in ChatGPT

4

Self-improve weekly

Keep it dense. Promote recurring patterns into durable rules.

PROMPT · TIDY MY NUCLEUS

Review my Nucleus with fresh eyes. Collapse duplicates, drop stale open loops, and lift any pattern that appears several times in the log up into Decisions as a durable rule. Return the tightened version + a 2-line summary of what you changed.

tap to auto-fill

WHY IT WORKS

Context compounds. By week two your AI stops asking who you are and starts briefing you on what's next.

GO DEEPER

Want this done for you?

This guide hands you the system. If you'd rather have it built for you, that's what I do: I find where your time leaks and build the tool that plugs it. No hype — just your hours, back.
