

PRACTICAL AI

50 Tasks to Automate in Your Business

A checklist of the real, boring, time-eating tasks AI can take off your plate today
- plus a prompt to build the automation.

Don't automate for fun. Automate the task stealing the most hours.

- 1 Scan the list; tick the tasks that actually hurt.
- 2 Customer & sales: calls, booking, FAQs, follow-ups, proposals.
- 3 Content & marketing: repurposing, captions, scheduling, quote cards.
- 4 Operations: inventory, summaries, dashboards, inbox, invoices.
- 5 Pick the ONE that costs the most hours - start there.

That's the whole system. The rest of this guide walks each step, with copy-paste prompts you can run in one tap.

The checklist

- ☐ Answer missed calls / inbound
- ☐ Book appointments
- ☐ Reply to FAQs
- ☐ Follow up with leads
- ☐ Draft proposals
- ☐ Repurpose one video into a week of posts
- ☐ Write captions + newsletters
- ☐ Schedule cross-posts
- ☐ Track inventory
- ☐ Summarize meetings
- ☐ One dashboard instead of nine tabs
- ☐ Sort + label your inbox
- ☐ Generate invoices

Turn a task into an automation

1

Pick and build

Start with the biggest time-leak.

PROMPT · DESIGN MY AUTOMATION

The task eating the most of my time is [TASK]. Walk me through automating it with tools I likely already have: the simplest setup, the steps, and what stays manual. Give me a copy-paste prompt or workflow I can use today.

THE PICK

Circle the ONE that costs you the most hours. That's where you start - not all fifty at once.

GO DEEPER

Want this done for you?

This guide hands you the system. If you'd rather have it built for you, that's what I do: I find where your time leaks and build the tool that plugs it. No hype — just your hours, back.
